GREEN CENTURY - WHO WE ARE

Green Century is the first family of diversified, responsible, fossil fuel free mutual funds in the U.S. and is the leader of a highly effective shareholder advocacy program.

We are celebrating 26 years of environmentally and socially responsible impact investing. We help our investors save for the future without compromising their values.

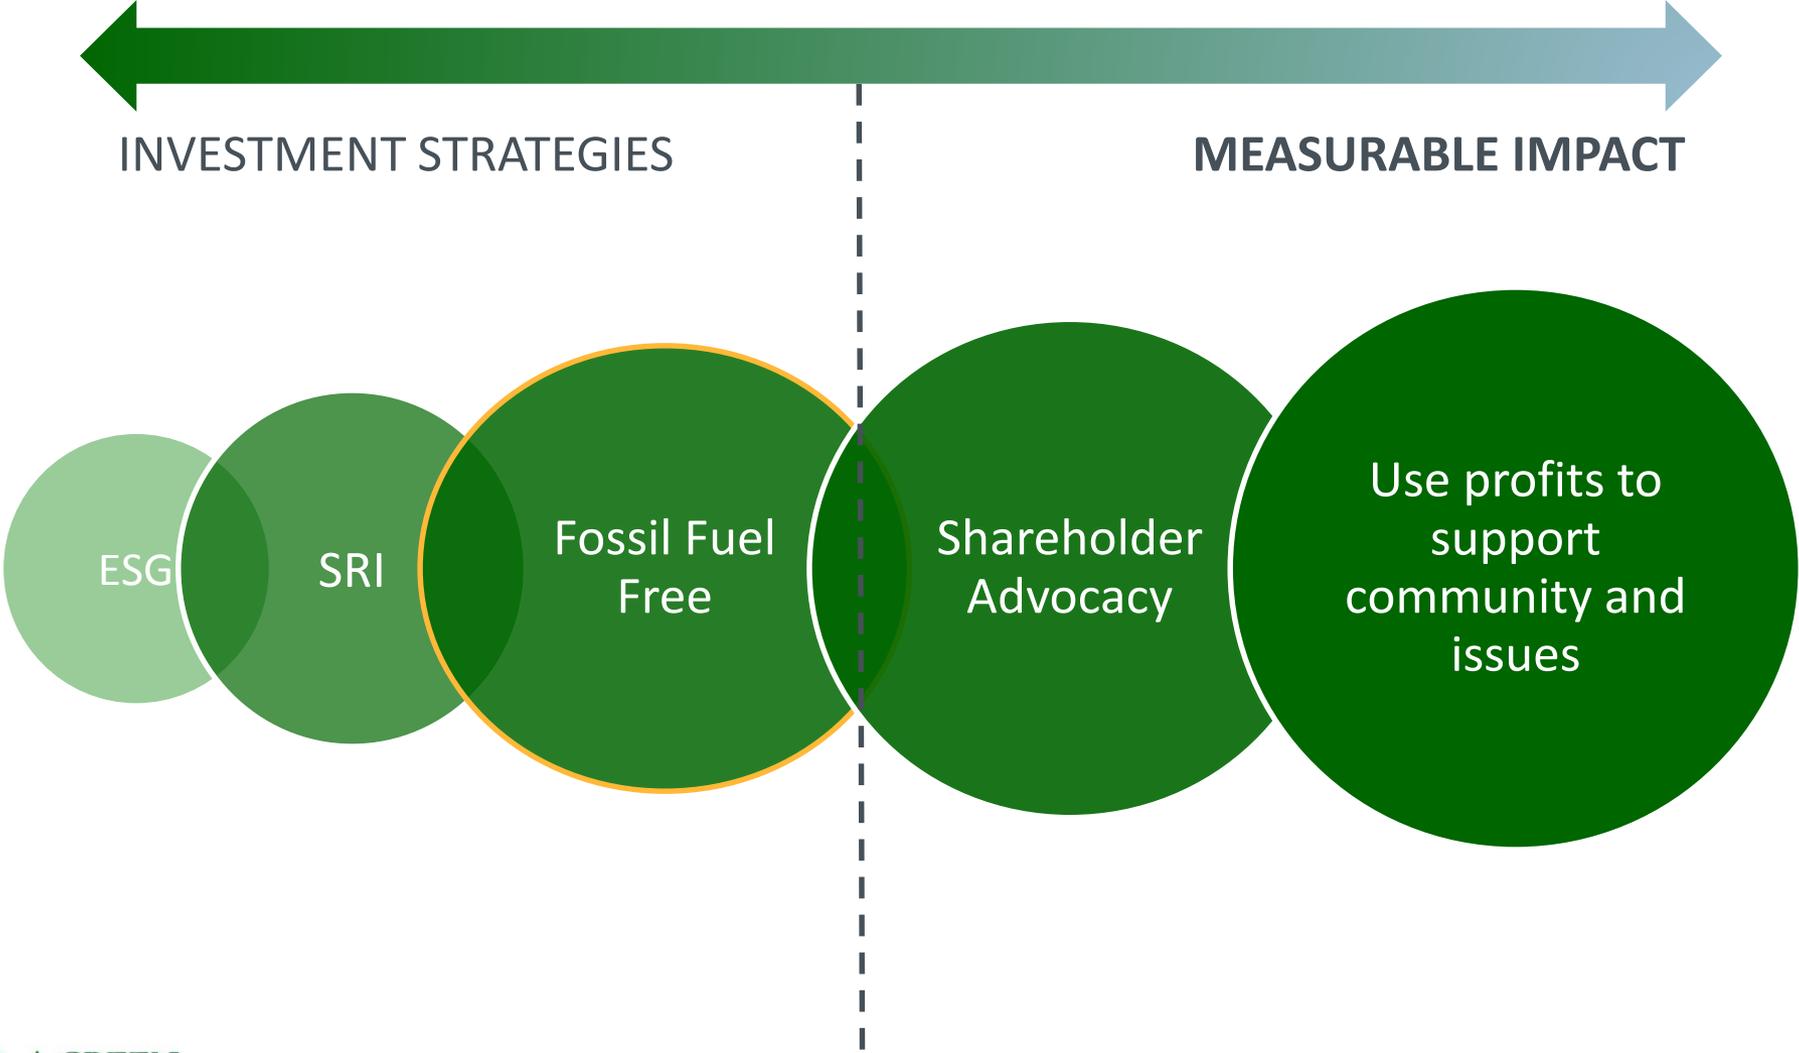

- Boston-based
- \$500 million assets under management as of 10/20/17
- Only U.S. mutual fund company owned by non-profit environmental groups

Green Century is the investment advisor to three mutual funds:

- Green Century MSCI International Index Fund
 - Individual Investor Share Class (GCINX)
 - Institutional Share Class (GCIFX)
- Green Century Equity Fund (GCEQX)
- Green Century Balanced Fund (GCBLX)

APPROACHES TO RESPONSIBLE INVESTING

CURBING CLIMATE CHANGE THROUGH SHAREHOLDER ADVOCACY

This is what a tropical rainforest should look like. Tropical rainforests sequester carbon emissions, provide habitat for endangered species, and support local populations.

CURBING CLIMATE CHANGE THROUGH SHAREHOLDER ADVOCACY

Palm Oil Facts

- Palm oil is an inexpensive and highly versatile vegetable oil derived from the fruit of the oil palm tree.
- Palm oil is the most widely used vegetable oil in the world. It appears in half of the consumer goods on U.S. supermarket shelves, including cereal, crackers, soap, shampoo, and detergent.
- It is also the highest-yielding vegetable oil crop, using less resources to produce oil than other crops.
- Clearing forests for palm oil production has pushed Bornean orangutans and Sumatran elephants and tigers to the brink of extinction.
- As a petroleum alternative, palm oil can power vehicles, heat homes, and manufacture plastic.

CURBING CLIMATE CHANGE THROUGH SHAREHOLDER ADVOCACY

This is what a tropical rainforest can look like after it has been burned to create a palm oil plantation. Palm oil is the leading cause of deforestation in Indonesia, which is the sixth worst greenhouse gas emitter in the world. There are cleaner and safer ways to produce palm oil.

CURBING CLIMATE CHANGE THROUGH SHAREHOLDER ADVOCACY

That's why Green Century started working to change the way oil palm trees were grown. Kellogg's* was among the first purchasers to commit to zero-deforestation palm oil.

CURBING CLIMATE CHANGE THROUGH SHAREHOLDER ADVOCACY

In the following year, Archer Daniels Midland*(ADM) was the first commodity trader to adopt a zero-deforestation agreement. ADM is the one of the world's largest agricultural processors and food ingredient providers.

CURBING CLIMATE CHANGE THROUGH SHAREHOLDER ADVOCACY

Green Century has also worked with Asia's largest agribusiness, Wilmar International,* which is also the world's largest palm oil producer.

COMMITMENTS TRANSFORM THE SUPPLY CHAIN

From 2012 to 2017, the percentage of palm oil refineries covered by zero-deforestation agreements grew from 5% to 74%. Over 400 companies have made commitments to curb deforestation.

CURBING CLIMATE CHANGE THROUGH SHAREHOLDER ADVOCACY

In 2017, Green Century shareholder advocate Kate Kroll went to Indonesia to ensure Wilmar was implementing its zero-deforestation commitments. These typical “fresh fruit bunches” hold hundreds of kernels that contain palm oil.

CURBING CLIMATE CHANGE THROUGH SHAREHOLDER ADVOCACY

Under its new policy, Wilmar now cuts down harvested trees and composts them into the soil rather than burning new land to create plantations.

CURBING CLIMATE CHANGE THROUGH SHAREHOLDER ADVOCACY

Palm oil tree seedlings are moved from the nursery to these reclaimed plots of land.

CURBING CLIMATE CHANGE THROUGH SHAREHOLDER ADVOCACY

Fresh fruit bunches, which are nestled in the middle of this younger tree, can grow to weigh over 30 lbs.

CURBING CLIMATE CHANGE THROUGH SHAREHOLDER ADVOCACY

Wilmar has experienced higher yields since implementing its new policy, which provides a strong business case for other companies as well.

CURBING CLIMATE CHANGE THROUGH SHAREHOLDER ADVOCACY

Wilmar's global policy will keep 1.5 gigatons of carbon out of the atmosphere between 2014 and 2020.

Green Century measures its impact by the real-world changes it makes.

**Together, we can use the power of investments to
create a better world.**

Thank you for partnering with us.
